"I have been in the club for three months now, and I must say the food is always delivered between 5 to 6 pm, the hot food is hot and the cold food is cold. The meals always very good tasting. I love the desserts."

"The quality and variety of the meals delivered during this month was excellent. ...the portion sizes are large, we always had left overs for lunch the next day. When you take into consideration the cost includes food, delivery, tax and a tip for the Driver - it turns out to be very reasonable."
